

AI FILMMAKER CHALLENGE

THE CHALLENGE

Create a **60-second AI-powered film trailer** on the theme of the **Indian Education System**.

Your trailer must be based on an **original script** and created using **AI-generated shots in every scene**. We recommend using **Morphic.ai**, but you may use any AI tool you see fit.

Your goal is simple: **Make people want to watch the full story in under 60 seconds.**

You will build:

1. A story concept
2. An original script
3. A 60-second AI-powered trailer
4. A single-slide pitch explaining why your film deserves to exist

LIT School will reimburse AI tool usage up to **\$5**. You may submit your bill and account details for reimbursement along with your final submission.

FILM ELIGIBILITY

To be eligible for submission, your film must meet the following conditions:

1. It must be based on an original script.
2. It must use AI-generated shots in every scene.
3. You must own all copyrights or have the required license agreements for usage.
4. It must be **60 seconds or less** in duration, including credits.
5. It must include **English subtitles** if the film has dialogue or text in any language other than English.

The Question You Are Trying to Answer

What story am I telling, and can I make someone pay attention and feel something in under a minute using AI as my production crew?

FINAL SUBMISSION

Submit the following:

1. **AI-powered trailer MP4** under 60 seconds
2. **Single-slide presentation/deck** with your story concept and pitch
3. Date of Submission: **23rd June 2026**
