

CREATOR MARKETER CHALLENGE

THE CHALLENGE

Clout Chasers is a collective of creators building their personal channels while also working together with brands to create promotional campaigns.

The collective has received a brief from **Wispr Flow**.

Your challenge is to create a **10-post creator campaign proposal** for Wispr Flow across all 4 creator channels.

But this is not about making 10 random content ideas.

Your job is to understand each creator's individual style, audience, tone, humour, format, and content language - and then design a campaign where every post feels native to that creator while still clearly selling the product.

Wispr Flow helps people speak naturally and turn their thoughts into polished writing. Your campaign should show how creators, students, founders, marketers, professionals, and everyday users can use voice instead of typing to write faster, think clearer, and create more.

Your goal is simple: **Create a campaign where Wispr Flow does not feel like an ad forced into creator content, but a useful tool naturally discovered through each creator's world.**

You will build:

1. A clear understanding of the Wispr Flow product
2. A style analysis for all 4 creators, explaining their style / niche
3. The core campaign idea or central thought
4. A 10-post content plan across the 4 creator channels
5. Post-wise concepts with hook, format, creator, storyline, and product integration
6. A reason for why each post belongs to that specific creator
7. A platform and posting strategy
8. A campaign flow showing how the 10 posts build awareness, interest, desire, and trial
9. Expected campaign outcomes such as reach, saves, shares, clicks, trials, or brand recall
10. A deck/proposal written as if pitching the campaign to Wispr Flow

For additional brownie points, you may also create:

1. One fully written sample reel script
2. One storyboard for a hero post
3. One mock Instagram carousel
4. One creator-wise content calendar
5. One sample campaign landing page
6. One edited sample reel or animatic

CAMPAIGN ELIGIBILITY

To be eligible for submission, your campaign proposal must meet the following conditions:

1. It must be designed specifically for Wispr Flow.
2. It must use Clout Chasers as the creator collective.
3. It must include all 4 creators: Cassius Clyde Pereira, Harshit Chajjed, Karthic, and Nitin Zequeira.
4. It must include exactly 10 post ideas across the 4 creator channels.
5. Each post must feel native to the selected creator's style and audience.
6. The product integration must be clear, useful, and believable.
7. The campaign must show multiple use cases of Wispr Flow, not the same product demo repeated 10 times.
8. The proposal must include a creator style analysis before presenting the content ideas.
9. The campaign must include a clear big idea or campaign thought.
10. The final plan must feel like a brand pitch, not just a list of content ideas.

The Question You Are Trying to Answer

Can I understand a brand, decode different creator styles, and design a 10-post campaign where every creator sells the same product in a way that feels completely natural to them?

FINAL SUBMISSION

Submit the following:

1. **Presentation/deck** explaining your campaign strategy, creator analysis, big idea, and 10-post proposal
 - a. **Creator style analysis** for all 4 creators
 - b. **10-post content plan** with creator name, format, hook, concept, product integration, and objective
 - c. **Campaign flow** showing how the posts move people from awareness to product trial
 - d. **Expected outcomes** such as reach, engagement, clicks, trials, or brand recall
2. **Bonus:** Sample reel script, storyboard, carousel mockup, posting calendar, landing page, or edited sample reel
3. Date of Submission: **23rd June 2026**
