

CREATIVE AGENCY OWNER CHALLENGE

THE CHALLENGE

Rapido has approached your creative agency to build a campaign for **college-going students from Tier 2 and Tier 3 cities**.

The goal of the campaign is to position Rapido Captain work as a **flexible, practical, and respectable source of side income** for eligible young people. But this is not just a creative idea challenge.

You are the owner of a creative agency, and you have received a campaign budget of **₹50L**. Your job is to turn the brief into a complete execution plan; from strategy to assets, production, budgeting, timelines, team responsibilities, campaign roll-out, and final delivery.

You are free to design your agency team as per your strategy. You may build a lean team, a production-heavy team, a creator-led team, a performance-focused team, or a hybrid agency model.

Your team includes the following

1. Account Manager X 2
2. Copywriter X 1
3. Graphic Designer X 3
4. Video Producer X 1
5. Assistant Producer X 2
6. Cinematographer X 1
7. Video Editor X 4
8. Social Media Manager X 2

You may add, remove, merge, outsource, or restructure roles as you see fit; but you must clearly explain why your team structure is the best way to deliver the campaign.

Your campaign must speak to students who want more financial independence, but also have concerns around safety, time, family approval, respect, documents, and balancing work with college. The campaign should only target **eligible 18+ students** with valid licenses, required documents, and safe riding behaviour.

Your goal is simple: **Build a campaign system that makes eligible college students in Tier 2 and Tier 3 cities see Rapido as a flexible side-income opportunity they can manage around their own schedule.**

You will build:

1. A clear campaign strategy
2. A target audience insight
3. A big idea or campaign thought
4. A full campaign asset / creative plan
5. A minimum of 20 campaign assets across formats
6. A custom agency team structure
7. Role-wise responsibilities for your agency team
8. A ₹50L budget allocation plan
9. A production and execution timeline
10. A city/college activation strategy
11. A creator or influencer collaboration strategy
12. A performance marketing or media amplification plan
13. A measurement plan for campaign success
14. A client-facing deck explaining your complete campaign approach

For additional brownie points, you may also create:

1. Sample campaign scripts
2. Sample static ad designs
3. Sample reel storyboards
4. A college activation booth concept
5. A creator collaboration plan
6. A shoot plan or production schedule
7. A performance marketing media plan
8. A sample campaign calendar
9. A sample city-wise rollout plan
10. A reporting dashboard format

CAMPAIGN ELIGIBILITY

To be eligible for submission, your campaign proposal must meet the following conditions:

1. It must be designed specifically for Rapido.
2. It must position Rapido Captain work as a side-income opportunity for eligible 18+ college students.
3. It must focus on Tier 2 and Tier 3 cities.
4. It must not encourage underage riding, unsafe riding, speeding, or skipping college responsibilities.
5. It must clearly mention eligibility, valid license, documents, and safe riding behaviour.
6. It must include a clear campaign idea that can go big.
7. It must include a minimum of 20 campaign assets across different formats.
8. It must include a custom agency team structure with role-wise responsibilities.
9. It must explain why your chosen agency team structure makes sense for this campaign.
10. It must include a ₹50L budget split.
11. It must include a practical execution timeline.
12. It must include a college or city-level activation strategy
13. It must include a creator or media activation strategy
14. It must include measurable outcomes such as sign-ups, leads, app installs, Captain registrations, engagement, or brand recall.

The Question You Are Trying to Answer

Can I run a creative agency that takes a ₹50L brand brief and turns it into a complete campaign system with strategy, assets, team structure, budget, timelines, production, amplification, and execution, not just a few creative ideas?

FINAL SUBMISSION

Submit the following:

1. **Presentation/deck** explaining your campaign strategy, audience insight, big idea, execution plan, and expected outcomes
 - a. **Custom agency team structure** with role-wise responsibilities and reasoning
 - b. **Campaign asset plan** with at least 20 assets across video, static, social, digital, performance, and activation formats
 - c. **₹50L budget allocation** across strategy, production, design, editing, creators, activations, media, tools, outsourcing, and contingency
 - d. **Production and execution timeline** showing how the campaign will be delivered
 - e. **City/college activation plan** for Tier 2 and Tier 3 audiences
 - f. **Creator/media amplification plan** explaining how the campaign will reach the right audience
 - g. **Measurement plan** explaining how campaign success will be tracked
2. **Bonus:** Sample scripts, storyboards, ad designs, campaign calendar, media plan, reporting dashboard, or activation booth mockups
3. Date of Submission: **23rd June 2026**
